

Dear PAPEPO Handlers & Drivers,

To ensure standard service quality, environmental compliance, and personal safety across all operating zones, please use this authorized equipment list as your sourcing guide. If you choose not to purchase our pre-packed Starter Kit, you are required to self-source items that strictly meet or exceed the technical specifications outlined below before your first official route assignment.

SANITIZATION & CHEMICAL COMPLIANCE

Broad-Spectrum Virucidal Disinfectant (e.g., Safe4 Disinfectant Cleaner)

- DEFRA-approved animal safe formulation
- Effective against Parvovirus, Coronavirus, Ringworm, and Campylobacter
- Non-toxic, non-corrosive, and fully biodegradable

High-Concentrate Organic Odour Eliminator (e.g., Safe4 Odour Killer)

- Enzymatic Molecular Breakdown: Utilises an advanced blend of essential oils and organic compounds to physically break down and neutralise ammonia and urea molecules, rather than just masking smells with heavy artificial perfumes.
- Zero Pathogen Adaptability: Specifically engineered to combat deeply embedded turf odours caused by repeated canine urination and waste decomposition in residential gardens.
- Paw & Lawn Friendly: 100% non-toxic, allergen-free, and pre-tested to ensure zero scorching on high-end lawn grass or irritation to sensitive canine paw pads.

Tactical Domestic Bin Deodoriser (e.g., Bin Odour Neutraliser Spray)

- Post-Scoop Sanitisation: Formulated for immediate application inside clients' domestic waste bins after securing biodegradable poop bags to instantly suppress bacterial gas buildup.
- Long-Lasting Residual Shield: Leaves a clean, high-contrast fresh layer that prevents maggots, repels flies, and guarantees a premium olfactory experience for the homeowner upon opening.

WASTE COLLECTION & HAND TOOLS

Please search for these exact terms on Amazon.co.uk to complete your operational kit based on your personal preference:

- **Heavy-Duty Pooper Scooper (Available in Long-Handle or Short-Handle / One-Handed variants)**
- **Long-Reach Lawn Rake & Waste Pan Set**
- **Spatial Mobile Bins / Heavy-Duty Tubs**

CONSUMABLES & PERSONAL PROTECTION

Essential operational items. Ensure all waste bags strictly meet the biodegradable compliance standard below:

- **Extra-Thick Biodegradable Dog Poop Bags (Must be leak-proof and Certified 100% Compostable)**
- **20L Biodegradable Waste Bags (For spatial mobile bins / lining heavy-duty tubs)**
- **Heavy-Duty Disposable Gloves (Nitrile recommended for chemical & bio-hazard resistance)**
- **Safety Field Boots**
- **Anti-Bacterial Hand Sanitiser**
